The FBI's intrusions into the life and rights of Dr. Martin Luther King, Jr., of his associates and his SCLC are to a degree reflected in those records of this nature of which the FBI provided copies to the House Select Committee on Assassination. FBIHQ 62-117290, disclosed to me, especially in the parts of Section 21 (Serial 1321), hold these records. They have become too numerous for me to make copies of all of them. Where and how to file all of them is also a problem. Some may be in my King assassination working file (three-drawer) under Crime Records, King, Surveillance, Cointelpros, Domestic Intelligence, Invaders, Memphis Sanitation Workers Strike and possibly others. Those with sufficient interest should check all these files and perhaps others.
